

ABSTRACT**Method of Installing a Safety Line to a Window, and
a Window having the Safety Line**

5

A method of installing a safety line 150,170 to a window 100 and a window 100 having the safety line 150,170 is disclosed herein. In a described embodiment, the window 100 comprises a window frame 102, a window panel 104 movable
10 relative to the window frame 102; and a safety line 150 having a first end 154 secured to the window frame 102 and a second end 156 secured to the window panel 104, wherein the safety line 150 has a length which enables the relative movement of the window panel 104.
