

**RF ELECTRODE CARTRIDGE FOR SKIN COSMETIC TREATMENT
COMPRISING RELAY, AND HANDPIECE FOR SKIN COSMETIC
TREATMENT COMPRISING SAME**

5 **ABSTRACT**

 The present invention relates to: an RF electrode cartridge for skin cosmetic treatment, the RF electrode cartridge comprising a relay; and a handpiece for skin cosmetic treatment, the handpiece comprising the RF electrode cartridge. The relay, which controls
10 electrical signals applied to an RF electrode, is positioned in the RF electrode cartridge, and when the RF electrode cartridge is replaced, the relay, which is a consumable part, is also replaced, thus making it possible to use the handpiece without replacing a handpiece body casing, and reducing the hassle and cost of replacing the handpiece body casing.
