(54) Title: INSECT, BACTERIAL, AND/OR FUNGAL CONTROL COMPOSITION

(57) Abstract: The present disclosure relates to an insect, bacteria, and/or fungi control composition that includes a carrier oil and two or more essential oils for effectively controlling and/or killing insects, bacteria, and/or fungi. Some insect, bacteria, and/or fungi control compositions comprise castor oil; a first oil selected from the group consisting of rosemary oil, thyme oil, clove oil, garlic oil, geraniol, peppermint oil, and cinnamon oil; and a second oil selected from the group consisting of rosemary oil, thyme oil, clove oil, garlic oil, geraniol, peppermint oil, and cinnamon oil, wherein in the first oil is different from the second oil. Compositions according to the present disclosure kill insects at multiple stages in their life cycle including adult insects, larvae, and disrupt the egg cycle. The insect, bacteria, and/or fungi control compositions can effectively control insect, bacteria, and/or fungi and retain control and/or insecticidal, bactericidal, and/or fungicidal potency over a longer period of time than other natural insect, bacteria, and/or fungi control agents.
