ABSTRACT

The present invention provides an antifungal agent that has superior antifungal action and is also superior in terms of physical properties, safety and metabolic stability. The present invention discloses a compound represented by the formula (I):

(I)

(wherein X represents an oxygen atom, a sulfur atom or -NH-, R^1 represents a hydrogen atom, a halogen atom, a cyano group, an amino group or a substituent, and R^2 and R^3 independently represent a hydrogen atom, a halogen atom, a hydroxyl group or a substituent, except for a case in which R^2 and R^3 are both hydrogen atoms), and an antifungal agent containing the above compound.
