

CAPSULE CONTAINING FUNCTIONAL SUBSTANCE AND METHOD FOR
MANUFACTURING SAID CAPSULE

ABSTRACT

It is an object of the present invention to provide a capsule comprising a functional substance and having good shape stability and a good feeling of use. A method for producing a capsule, comprising steps of mixing gelatin and a functional substance; adding a carbodiimide crosslinking agent to crosslink the gelatin with the carbodiimide crosslinking agent; solidifying the crosslinked gelatin; and grinding the solidified gelatin.
