
100
102
Make Sheets of Gelatin for Soft-gel
104
Align Two Sheets of Gelatin
106
Dispose Fill Material Between Two Sheets of Gelatin
108
Heat or Photo Sealed the Two Sheets of Gelatin Forming a Seam in which the Gelatin is Cross-linked Across the Seam
110
Dry the Soft-gel

FIG. 1

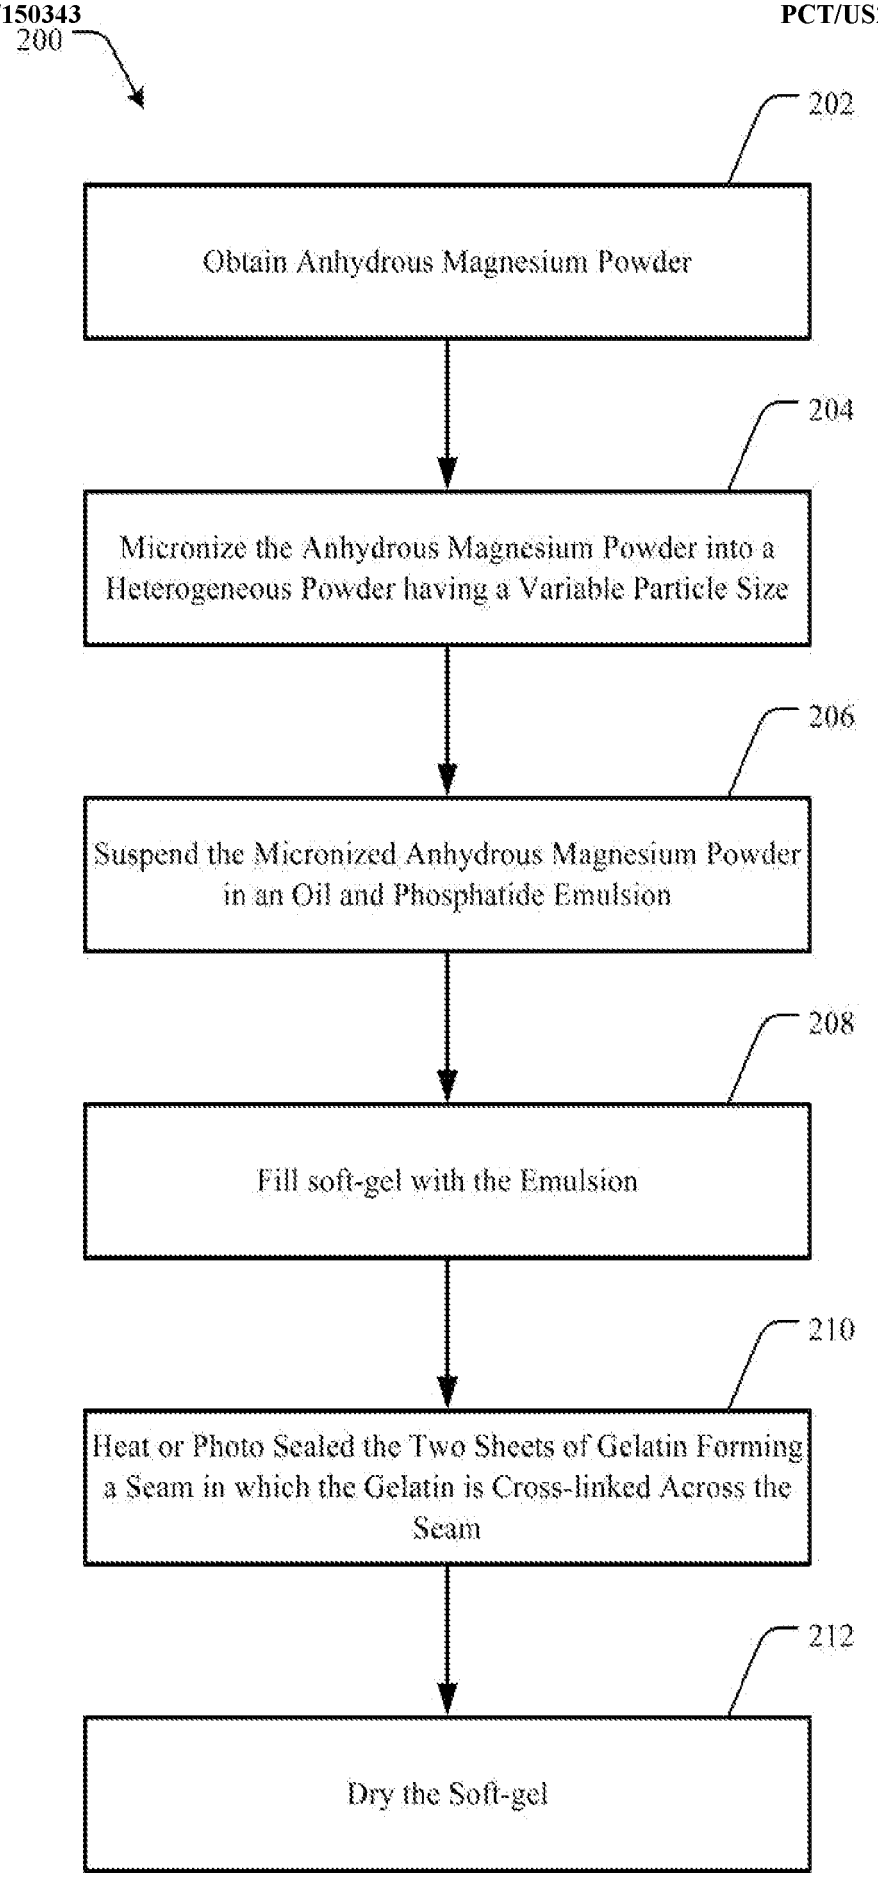

200
202
Obtain Anhydrous Magnesium Powder
204
Micronize the Anhydrous Magnesium Powder into a Heterogeneous Powder having a Variable Particle Size
206
Suspend the Micronized Anhydrous Magnesium Powder in an Oil and Phosphatide Emulsion
208
Fill soft-gel with the Emulsion
210
Heat or Photo Sealed the Two Sheets of Gelatin Forming a Seam in which the Gelatin is Cross-linked Across the Seam
212
Dry the Soft-gel

FIG. 2
