

SUBSTITUTED PHENYLIMIDAZOPYRAZOLES AND USE THEREOF

A b s t r a c t

The present application relates to novel 1-phenyl-1*H*-imidazo[1,2-*b*]pyrazole derivatives, to processes for their preparation, to their use for the treatment and/or prevention of diseases and to
5 their use for preparing medicaments for the treatment and/or prevention of diseases, in particular angiogenic disorders and hyperproliferative disorders, where neovascularization plays a role, such as, for example, neoplastic disorders and tumour disorders. Such treatments can be carried out as monotherapy or else in combination with other medicaments or further therapeutic measures.
