[Title of Invention] RELEASE SHEET AND METHOD FOR
PRODUCING RELEASE SHEET

5 A release sheet is disclosed, comprising a base
material and a release agent layer provided on at least one
surface side of the base material. The release agent layer
is formed from a release agent composition. The release
agent composition contains a hydroxyl group-containing
10 acrylic-based compound, polyorganosiloxane, and an
isocyanate group-containing compound. The release sheet
exhibits excellent releasability.
