(54) Title: FIRING PREVENTING AND STOPPAGE APPARATUS FOR REMOTELY OPERATED AUTOMATIC WEAPON

Fig. 2

(57) Abstract: Firing preventing and stoppage apparatus for remotely operated automatic weapon such as installable in RCWS (Remotely Controlled Weapon Station), that comprises a barrier component and an actuator connected to the barrier component, wherein the barrier component is suited to movement through a cartridges ejection port from an automatic weapon, to a movement path of the breech block of the weapon, for preventing in advance or stoppage of runaway firing from it, and outwards from it in a manner that enables firing, an RCWS equipped with such apparatus and a method for preventing and stopping runaway firing of automatic weapons that are mountable in an RCWS and comprises a breech block and a cartridges ejection port that is implemented in such apparatus.
