(54) Title: TOXOID, COMPOSITIONS AND RELATED METHODS

(57) Abstract: Methods of producing purified clostridial toxin comprising tangential flow filtration, hydrophobic interaction chromatography and anion exchange chromatography are disclosed. These methods provide good yields of C. *difficile* toxin having a purity of about 90% or greater. Highly purified Clostridial toxins, toxoids (e.g., prepared by inactivating the toxin as disclosed herein) and compositions comprising these toxins and/or toxoids are also disclosed. Methods of using the purified toxins and/or toxoids for example, to elicit an immune response against Clostridium (e.g., C. *difficile*) are also disclosed.
