ABSTRACT

MONO (IRON HYDROXYPYRONE) AND COMBINATION (IRON HYDROXYPYRONE AND GI INFLAMMATION INHIBITING AGENTS) COMPOSITIONS FOR ANAEMIA OR H. PYLORI INFECTIONS

There is provided a composition or kit of parts comprising: one or more compounds capable of treating and/or preventing an inflammatory disease of the gastrointestinal tract: and an iron hydroxypyrone, for increasing the level of iron in a patient's bloodstream and/or treating and/or preventing anaemia such as iron deficiency anaemia. A composition comprising iron hydroxypyrone is also provided for administration to a subject: having or at risk of having achlorhydria; wherein the gastric pH of the subject is equal to or greater than about 4; or wherein the subject has an inflammatory disease of the gastrointestinal tract.
