

TABLE WITH AN ANGLE-ADJUSTABLE TABLE TOP**ABSTRACT OF THE DISCLOSURE**

A table with an angle-adjustable table top includes:
a supporting body (1); a table top (2) turnable to adjust
an inclining angle of the table top (2) with respect to
5 the supporting body (1); and an angle-adjusting mechanism
(4) including an angle-adjusting member (40) having two
end portions (400, 401) and being configured to have a
slidable telescopic structure between the end portions
(400, 401) such that the end portions (400, 401) can be
10 slid toward or away from each other, and a bumper (41)
for mitigating a sliding speed of the telescopic structure
to prevent the table top (2) from rapidly approaching
the supporting body (1) when the telescopic structure
slides.

15 Fig. 7 is suggested for publication.
