

ABSTRACT

A confirming method of membership, comprising: identifying, under a visible light, a physical arrangement of all diamonds (13) disposed on a single support product (12); identifying, under ultraviolet radiation, an arrangement of a diamond or diamonds (13) having a blue fluorescent equal to or stronger than strong blue in the physical arrangement; and distinguishing a group of all the diamonds (13) in the physical arrangement having a blue fluorescent equal to or stronger than strong blue, from a group of the diamonds on the single support product at least partly including a diamond or diamonds not having a blue fluorescent equal to or stronger than strong blue.
