DISPOSABLE GOWN

G00001

A disposable gown 1 is composed of a basic trunk portion 1A having front and rear trunk regions 2, 3, and both sleeves 4A, 4B, wherein the rear trunk region 3 includes first and second rear trunk halves 3A, 3B. Collar elements 5, 7A, 7B by which the first and second rear trunk halves 3A, 3B may be kept closed is formed from a front collar member 5 attached to the front trunk region 2 and surrounding front half of a neck opening, a first rear collar member 7A attached to the first rear trunk half 3A and surrounding rear half of the neck opening, and a second rear collar member 7B attached to the second rear trunk half 3B and surrounding rear half of the neck opening. Two pairs of engaging means 6, 8 are formed on respective ends 5a, 7a, 7b of the front collar member 5 and the first and second rear collar members 7A, 7B. The engaging means 6, 8 detachably fasten the collar members 5, 7A, 7B to each other.

Refer to Fig. 1
