

ABSTRACT**NOZZLE FOR BLOWING GAS INTO AN INCINERATOR WITH A PIPE AND A
SWIRL GENERATOR, FLUE GAS EXHAUST WITH A NOZZLE OF SUCH KIND,
AND METHOD FOR USING A NOZZLE OF SUCH KIND**

The invention relates to a nozzle for blowing gas into an incinerator, with a nozzle pipe and a swirl generator, wherein the nozzle pipe is cylindrical and the swirl generator is attached to the inside of the nozzle pipe, a flue gas exhaust having a nozzle of such kind and a method for using a nozzle of such kind.
