(54) Title: COMPOSITION

(57) Abstract: The present invention provides a composition comprising a water-soluble polymer matrix; and a benefit agent that is at least partially encapsulated in core-shell microcapsules comprising a core and a shell surrounding the core; wherein the composition comprises between about 54 wt% to about 85 wt% of benefit agent based on the total dry weight of the composition. The invention also relates to a method for preparing such compositions, to a consumer product comprising such compositions and to the use of the compositions to improve the perception or enhance the performance of the benefit agent in the consumer product.
