(54) Title: COMPOSITE MAGNETIC BODY AND ELECTROMAGNETIC INTERFERENCE SUPPRESSING BODY USING THE SAME

(57) Abstract: A composite magnetic body is obtained without the use of halogen-based or halogen-containing materials, such as, halogen-based binding agent of halogen-based resins or elastomers, and bromine-based fire retardants. The composite magnetic body (1) comprises a soft magnetic powder (2) and a silicone rubber (3). The silicone rubber (3) should preferably be a solid silicone rubber or a chemically setting liquid silicone rubber. An electromagnetic interference suppressing body is obtained using this composite magnetic body.
