

## **Abstract**

### **INTERMEDIATE USED FOR FAPI SYNTHESIS, PREPARATION METHOD THEREFOR AND APPLICATION THEREOF**

5

The present invention provides an intermediate used for Evans blue modified FAPI synthesis,  
a method for preparing the intermediate, and an application of the intermediate in the synthesis of  
an Evans blue modified FAPI. The use of the intermediate provided by the present invention to  
synthesize Evans blue modified FAPI can improve the production efficiency and reduce the  
10 production cost, and the intermediate is suitable for industrial production.
