(54) Title: A WALK-IN SHOWER AND TEMPORARY BATH

(57) Abstract: A walk-in shower having at least one fixed wall portion and a deployable wall portion operable in at least two configurations, namely a first shower configuration in which the deployable wall portion is located adjacent to one of the at least three wall portions leaving a walk in open entry and exit from the shower and a second bath configuration in which the deployable wall portion is located to close and seal the open entry and exit with movement of the deployable wall creating a bath enclosure to hold a volume of liquid at least temporarily.
