(54) Title: AIR GUIDED FILTER FOR INTERNAL COMBUSTION ENGINE

(57) Abstract: The present invention discloses an air guided filter arranged integrally with air filter and is called as air guided filter. The object of invention is to improve internal combustion engine performance without changing basic construction of the engine. The improvement encompasses only the action of changing the existing air filter with air filter according to the present invention. The user of air guided filter will make air flowing into combustion chamber stay clean since air is filtered and guided in such a way that quality of air and fuel mixed will be better. The combustion in the internal combustion chamber will thus be improved.
