(54) Title: HOLOGRAPHIC STEREOGRAM PRINTING APPARATUS AND A METHOD THEREFOR

(57) Abstract: A holographic stereogram printing system capable of printing a holographic stereogram by selectively performing a desired image processing on a still picture image or a motion picture image entered. The printing system is comprised of an image processing server (10) for selectively performing an image processing on an image data, an image storage server (20) for storing the image data processed in the image processing server, and a printing device (30) for printing a holographic stereogram in accordance with the processed image data stored in the image storage server.
