(54) **Title:** OSTOMY POUCH

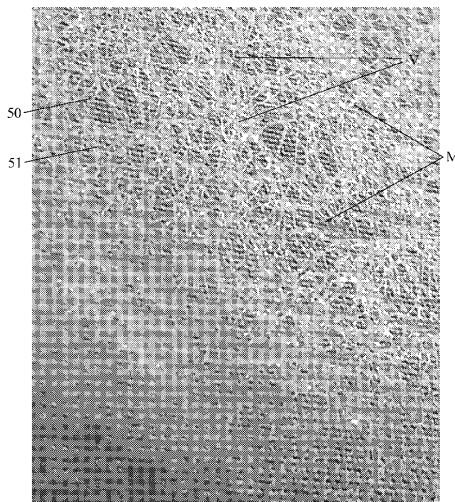

Figure 8

(57) **Abstract:** An ostomy pouch includes a sheet of woven comfort material. The sheet of woven comfort material has an outside surface and an opposite inside surface. The outside surface of the sheet of woven comfort material forms at least part of the outside surface of the pouch, and at least part of the inside surface of the sheet of woven comfort material is coated with a web of hot-melt adhesive. A method of forming a sheet of comfort material for an ostomy pouch involves coating one side of a sheet of woven comfort material with a web of hot-melt adhesive to provide an inside surface comprising the coating. The web comprises a mass with a plurality of voids therein.
