(54) Title: VIDEO PLAYING METHOD AND APPARATUS, AND STORAGE MEDIUM

(54) 发明名称: 视频播放方法、装置及存储介质

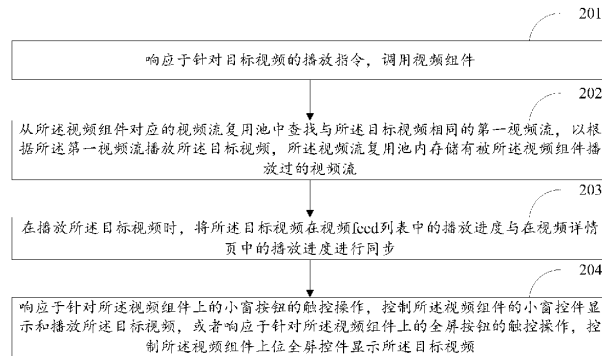

图 2

- 201 In response to a playing instruction for a target video, call a video component
- 202 Search a video stream multiplexing pool corresponding to the video component for a first video stream identical to the target video, and play the target video according to the first video stream, wherein the video stream multiplexing pool stores video streams that have been played by the video component
- 203 When the target video is played, synchronize the playing progress of the target video in a video feed list with the playing progress thereof in a video detail page
- 204 In response to a touch-control operation on a small-window button on the video component, control a small-window control of the video component to display and play the target video, or in response to a touch-control operation on a full-screen button on the video component, control a full-screen control on the video component to display the target video

(57) Abstract: Disclosed in the present application are a video playing method and apparatus, and a storage medium. The method comprises: in response to a playing instruction for a target video, calling a video component; searching a video stream multiplexing pool corresponding to the video component for a first video stream identical to the target video, and playing the target video according to the first video stream, wherein the video stream multiplexing pool stores video streams that have been played by the video component; when the target video is played, synchronizing the playing progress of the target video in a video feed list with the playing progress thereof in a video detail page; and in response to a touch-control operation on a small-window button, displaying the target video in a small window, or in response to a touch-control operation on a full-screen button, displaying the target video by a full screen.

本国际公布:

- 包括国际检索报告 (条约第21条(3))。
- 包括经修改的权利要求 (条约第19条(1))。

(57) 摘要: 本申请公开了一种视频播放方法、装置及存储介质, 该方法包括: 响应于针对目标视频的播放指令, 调用视频组件; 从视频组件对应的视频流复用池中查找与目标视频相同的第一视频流, 根据第一视频流播放目标视频, 视频流复用池内存储有被视频组件播放过的视频流; 在播放目标视频时, 将目标视频在视频feed列表中的播放进度与在视频详情页中的播放进度进行同步; 响应于针对小窗按钮的触控操作, 小窗显示目标视频, 或者响应于针对全屏按钮的触控操作, 全屏显示目标视频。
