

## ABSTRACT

TITLE OF THE INVENTION: ELECTROPHOTOGRAPHIC IMAGE  
FORMING APPARATUS, CARTRIDGE AND DRUM UNIT

- 5 [Problem to be solved] To further develop conventional technique.
- [Solution] a cartridge includes a casing, a photosensitive drum and a coupling.  
the coupling includes a driving force receiving portion for receiving a driving  
force by engagement with a driving force application member, a braking force  
receiving portion for receiving in braking force by engagement with a braking  
10 force application member, and a guide for moving the braking force application  
member relative to the driving force application member.
