

CLEANSING COMPOSITION

ABSTRACT

5 A cleansing composition includes (A) 2 to 17.5% by mass of an anionic
surfactant, (B) 1 to 17.5% by mass of an amphoteric surfactant, (C) 2.5 to 17% by
mass of a hydrophilic nonionic surfactant, and (D) 0.2 to 5% by mass of an oily
component. The cleansing composition does not include a substantial amount of a
monoglycerin fatty acid ester or a monoalkyl monoglyceryl ether including an alkyl
group or acyl group having nine carbon atoms or more. The cleansing composition
10 does not comprise a substantial amount of a diglycerin fatty acid ester or a
monoalkyl diglyceryl ether including an alkyl group or acyl group having eight
carbon atoms or more.
