(54) **Title: PILE CONSTRUCTION**

FIG. 1

(57) **Abstract:** The invention provides a construction support for supporting one or more pile sections during construction of a pile, the construction support comprising an opening for the receipt of, and passage therethrough, of a pile section, the construction support being configured to support one or more pile sections received through said opening, and comprising one or more positioners configured to position a pile section within the opening. A method of making a pile in a bore is also described.
