(54) Title: OFFSET PATHWAY ARRANGEMENTS FOR ENERGY CONDITIONING

(57) Abstract: An amalgamation of selected energy pathways and other elements formed at least in-part by sequential manufacturing operations and made operable to be coupled and/or formed as part of a predetermined assembly and/or assemblies and/or assembly variations practicable and/or operable for sustaining electrically opposing and/or complementary energy portion confluences that can be themselves made operable by the arrangement amalgam to undergo portions of energy conditioning as a portion of an energized circuit.
