

ABSORBENT ARTICLE

ABSTRACT

An absorbent article (1) worn on the body comprises: a
5 hydrophobic non-woven fabric (33), and an insect repellent
microcapsule (50) that is provided on a non-skin side of the
nonwoven fabric (33) and has an insect repellent fragrance and
an accommodating member that accommodates the insect repellent
10 fragrance, and is characterized in that the insect repellent
microcapsule (50) is introduced inside (33) the non-woven fabric
without reaching the skin side surface of the non-woven fabric
(33).
