TR), OAPI (BF, BJ, CF, CG, CI, CM, GA, GN, GQ, GW,
KM, ML, MR, NE, SN, TD, TG).

(54) Title: INFANT FORMULAS CONTAINING HUMAN BREAST MILK PROTEINS

(57) Abstract: The present invention in various aspects and embodiments provides infant formulas containing human milk proteins, optionally in combination with non-human animal milk proteins such as cow's milk and/or goat's milk protein, and/or vegetable proteins. In some embodiments, the sole source of milk proteins in the formula is recombinant or extracted human milk protein. In various embodiments, the infant formula is particularly beneficial for newborns diagnosed with cow's milk protein allergy, or other sensitive babies, who are unable to consume dairy products. Accordingly, the invention in other aspects provides methods for providing nutrition to newborns or infants diagnosed with cow's milk protein allergy, allergic proctocolitis, or otherwise infants that are intolerant of formulas comprising cow's milk protein, hydrolyzed formulas, or amino acid-based formulas.
