(54) **Title:** SYSTEM AND METHOD FOR PROVISIONING OVER THE AIR OF CONFIDENTIAL INFORMATION ON MOBILE COMMUNICATIVE DEVICES WITH NON-UICC SECURE ELEMENTS

(57) **Abstract:** A method for over-the-air (OTA) provisioning a non-Universal Integrated Circuit Card (UICC) type secure element (SE) of a mobile device, including receiving a request to initialize an OTA proxy of a mobile device; initializing the OTA proxy; receiving provisioning data through the OTA proxy; and provisioning the received data into the SE, in which the SE is a non-UICC type SE. A mobile device to provision secure data OTA in a non-UICC type SE including an OTA proxy to connect to a Trusted Service Manager (TSM) system, and to receive provisioning data from the TSM system; a near-field-communication (NFC) enabled chip to conduct a contactless transaction; and a SE to store information provisioned through OTA proxy, in which the SE is a non-UICC type SE.
