(54) Title: MODULAR LANDING PLATFORMS AND STRUCTURAL MODULES FOR MODULAR LANDING PLATFORMS

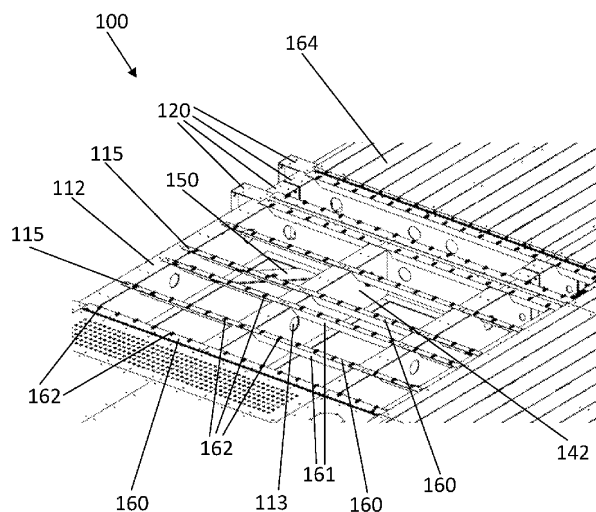

Figure 4

(57) Abstract: A modular landing platform and structural modules for forming the landing platform. Each structural module includes a frame comprising a plurality of sides and a plurality of coupling elements. At least one coupling element projects from each side of the frame and each coupling element has at least one fastening feature. Each coupling element is configured to couple the structural module to a separate module of the modular landing platform. The landing platform may be buoyant, include drainage, fire suppression, guard rails, electrical charging and pre-conditioned air units.
