(54) Title: ELECTRIC VEHICLE FLUIDS

(57) Abstract: An electric driveline fluid is described. The fluid includes a major amount of an oil of lubricating viscosity; an electric driveline additive that includes glycerol, glycol, glycol ether, pentaerythritol, vicinal diol, triol, or a derivative thereof; and at least one overbased sulfonate detergent. The amount of the electric driveline additive is from about 0.001 wt. % to about 1.5 wt. % based on the total weight of the electric driveline fluid.
