

ABSTRACT

DISPOSABLE ABSORBENT ARTICLE AND ABSORBENT CORE COMPOSITE OR CONSTRUCTION FOR INCORPORATION THEREWITH, COMPONENTS THEREFOR OR THEREOF, AND SYSTEMS, APPARATUS AND METHODS OF MAKING THE SAME

Improved absorbent core components including multiple layers configured to enhance fluid handling properties. The layers include absorbent material layers, with or without absorbent material-free lanes. The layers also include nonwoven layers, including air-through nonwovens, bulkified nonwovens, slitted nonwovens, and bulky nonwovens.
