(54) Title: SERVICE OUTLET FLOOR BOX WITH CONNECTOR MODULE

(57) Abstract: A service outlet floor box including a frame (1) and a connector module (2) detachably secured to the frame within the floor box, the connector module (2) including a casing of generally hollow cuboidal shape, wherein the casing comprises a first part (8, 9) including the top of the casing which mounts a connector unit that presents an upwardly facing connection facility (17) to which connection can be made during use of the floor box, and a second part (7) including the bottom of the casing, the first and second parts of the casing being separable from one another.
