(54) Title: MOBILE TERMINAL AND METHOD OF OPERATING THE SAME

(57) Abstract: Provided are a mobile terminal and a method of operating the same. The method includes: displaying a service request menu through a display unit; receiving a selection input of the service request menu; displaying a service request schedule input window through the display unit when the service request menu is selected and inputted; inputting a service request schedule through the service request schedule input window; and transmitting service request information, which includes the service request schedule inputted through the service request schedule input window, to another mobile terminal connected via a wireless communication network.
