

ABSTRACT

The present invention relates to a phosphorous acid compound represented by formula (I):

5 wherein R_1 represents a C_{1-8} alkyl group, a C_{5-8} cycloalkyl group, a C_{6-12} alkyl cycloalkyl group, a C_{7-12} aralkyl group or a C_{6-12} aryl group; R_2 represents a hydrogen atom or a C_{1-3} alkyl group; and R_3 represents a C_{3-25} alkylene group, a stabilizer for organic materials containing the phosphorous acid compound, a method for stabilizing an organic material

10 in which the phosphorous acid compound is added to the organic material, and a stabilized organic material composition containing an organic material and the phosphorous acid ester compound.
