(54) **Title**: COMPOSITIONS COMPRISING PROBIOTIC AND PREBIOTIC COMPONENTS AND MINERAL SALTS, WITH LACTOFERRIN

(57) **Abstract**: The present invention relates to compositions comprising probiotic and prebiotic components, mineral salts, lactoferrin, and possibly saccharomycetes, which perform correct, effective colonisation of the probiotic components administered, with enteric consequences which involve maintaining and/or restoring intestinal health and preventing the consequences of common dysbioses of the digestive tract caused by stress, incorrect dietary habits and antibiotic treatments. Said compositions also have a concomitant anti-inflammatory and immunomodulating action.
