(54) Title: SYSTEM AND METHOD FOR TREATING WATER OR WASTEWATER

Fig. 3

(57) Abstract: The present invention relates to a treatment system, apparatus, assembly, facility, cycle and/or method for the treatment of water or wastewater, in particular, a system, apparatus, assembly, facility, cycle and/or method for treating water or wastewater received at high flowrates (including in excess of approximately 200L/min) through a series of two or more dissolved air flotation chambers.
