(54) Title: PRESSURE GAUGE HAVING A DAMPENER MECHANISM

(57) Abstract

Dampening apparatus (46, 70, 78) for a pressure gauge (11) in which a short length of sleeve (50), ferrule (72), hub (80) encircles the pointer shaft (19) in a close but loose fit relation and is packed with a high viscosity fluid (58) such that it will serve to decelerate and cushion any sudden shock or pulsation force that would otherwise be transmitted to the pointer shaft (19).
