(54) **Title:** MOBILE DEVICE EMERGENCY MESSAGING HANDLING APPARATUS AND METHOD THEREFOR

FIG. 1

(57) **Abstract:** A disclosed method of operating an emergency messaging system includes: receiving a data message at a cloud server in response to a mobile device sending an emergency message to an emergency network; determining by the cloud server that the emergency network is incapable of receiving the emergency message in response to receiving the data message; and initiating a messaging session between the mobile device and the emergency network comprising a first messaging session leg between the mobile device and the cloud server, and a second messaging leg between the cloud server and a browser executing on an emergency network entity of the emergency network.
