(54) Title: QUICK CLOTHES HANGER SUITABLE FOR NARROW COLLARS

(54) 发明名称: 一种适用于窄领的快速衣架

图 1

(57) Abstract: The present invention relates to the technical field of clothes hangers, and specifically relates to a quick clothes hanger suitable for narrow collars. The quick clothes hanger comprises a handheld end, at least one movable arm, a release assembly, and a positional reset piece; the movable arm is installed on the handheld end; the release assembly is installed on the handheld end and jointly moves with the movable arm, and is used for driving the movable arm to fold towards to the handheld end, so as to pass through a narrow collar, or to drive the movable arm to open out away from the handheld end and lock the movable arm, so as to provide support for clothing; and the positional reset piece is mounted on the handheld end and connected to the movable arm and/or the release assembly. The device has a simple structure and a sensible design; during use, the handheld end is held in one hand, and the release assembly is pressed, so that the release assembly and the movable arm jointly move, and the movable arm is driven to fold to quickly pass through a narrow collar; after pressing stops, the movable arm is positionally reset and opens up under the action of the positional reset piece, and the movable arm is engaged via the release assembly to hang clothing, and thereby rapid hanging of narrow-collar clothing is achieved.
