

ABSTRACT

Embodiments of the present disclosure a video editing method and apparatus, an electronic device, and a storage medium. The method comprises: in response to the triggering operation on a text editing track segment in an editing track on a video editing interface, presenting a first text editing interface which is of the text editing track segment and comprises a text effect preview area, a text template selection area and a first text effect editing area; in response to an operation of selecting a target text template, placing a corresponding text material in the text editing track segment, and present a first text effect of the corresponding text material in the text effect preview area; in response to an editing operation on the target text template, adjusting the first text effect of the corresponding text material placed on the text editing track segment, and presenting in the text effect preview area a second text effect after adjustment of the first text effect of the corresponding text material. The solution reduces the operation path of text editing, and improves quick editing of the text effect while ensuring the high distribution efficiency of the text templates.
