Abstract Of The Disclosure

METHOD OF FORMING A $(CF_x)_n$ CONTAINING ABSORBENT
COMPOSITION,
INTERMEDIATE MATERIALS EMPLOYED IN CONDUCTING THE
METHOD
AND METHOD OF USING THE COMPOSITION FOR PREFERENTIAL
SEPARATION OF A FLUORINE-CONTAINING GAS FROM A GAS STREAM
CONTAINING THE SAME

Method of forming a $(CF_x)_n$ containing adsorbent composition by
combining a fine particle $(CF_x)_n$ starting material with a non-fluorinated
carbonaceous material prior to the formation of a solid body and intermediate
5 materials employed in conducting the method.
