MICRONEEDLE ARRAYS FOR CANCER THERAPY APPLICATIONS

ABSTRACT OF THE DISCLOSURE

A method of forming a microneedle array can include forming a microneedle array having one or more chemotherapeutic agents. The microneedle array can include a base portion and plurality of microneedles extending from the base portion, and the one or more chemotherapeutic agents can be present in a higher concentration in the plurality of microneedles than in the base portion.
