

Abstract**Loading arm assembly for a load-handling vehicle for
loading ISO containers and for loading transportation
containers having a hook**

The invention relates to a loading arm assembly (8) for a load-handling vehicle (1), having a main arm (9) and having an auxiliary arm (11), wherein the loading arm assembly (8) is configured for unloading and loading ISO containers (5) and for unloading and loading transportation containers (6) having a hook (7).

The loading arm assembly (8) is improved in that a crossbeam (19) having two corner grippers (24, 25) and furthermore, separately therefrom, a telescopic gripping hook (16) is disposed on the auxiliary arm (11).
