CLAIMS

1. A compound having the general formula:

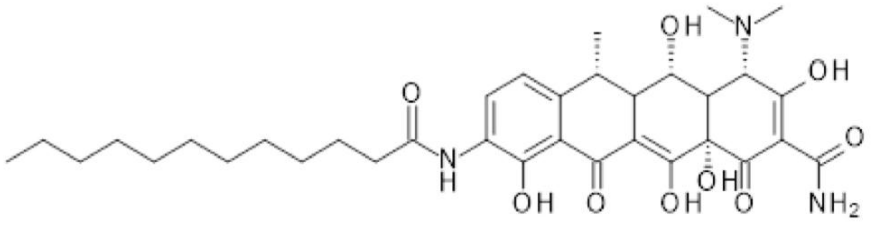

, wherein R is selected from a linear, saturated alkyl having from 11 to 16 carbons, or a pharmaceutically acceptable salt thereof.

2. The compound of claim 1, wherein the compound is

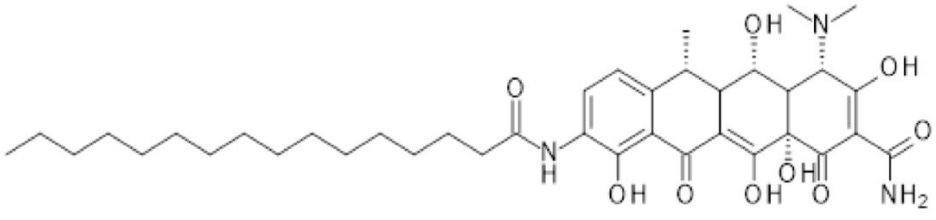

, or a pharmaceutically acceptable salt thereof.

3. The compound of claim 1, wherein the compound is

, or a pharmaceutically acceptable salt thereof.

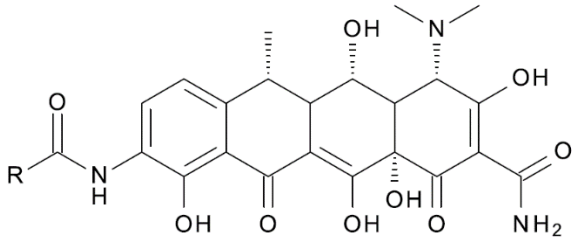

4. The compound of claim 1, wherein the compound is

, or a pharmaceutically acceptable salt thereof.

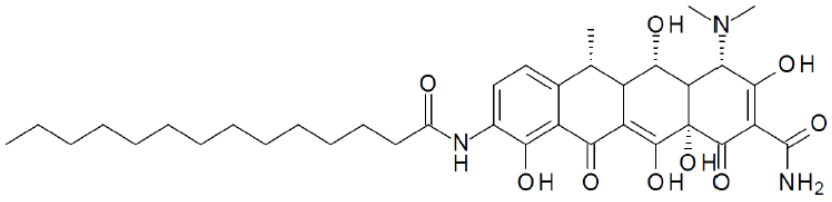

5. The compound of claim 1, comprising a pharmaceutically acceptable salt, and wherein the salt is one of monohydrate and hyclate.

6. A pharmaceutical composition for preventing metastasis, the composition comprising a compound having the general formula:

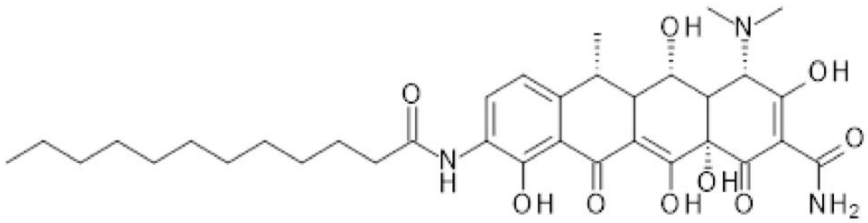

, wherein R is selected from a linear, saturated alkyl having from 11 to 16 carbons, or a pharmaceutically acceptable salt thereof, and a pharmaceutically acceptable carrier.

7. The pharmaceutical composition of claim 6, wherein the compound is

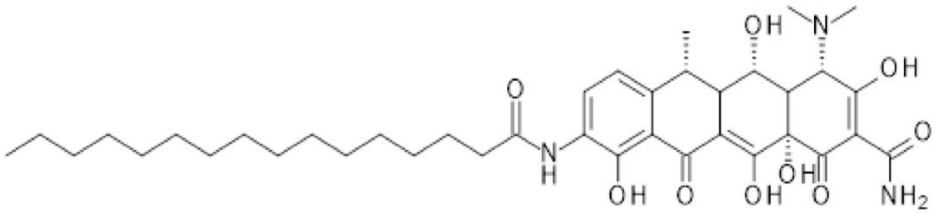

, or a pharmaceutically acceptable salt thereof.

8. The pharmaceutical composition of claim 6, wherein the compound is

, or a pharmaceutically acceptable salt thereof.

9. The pharmaceutical composition of claim 6, wherein the compound is

, or a pharmaceutically acceptable salt thereof.

10. The pharmaceutical composition of claim 6, comprising a pharmaceutically acceptable salt, and wherein the salt is one of monohydrate and hyclate.

11. The pharmaceutical composition of claim 6, wherein the pharmaceutically acceptable carrier comprises at least one of a sugar, a starch, cellulose, an excipient, an oil, a glycol, a polyol, an ester, an agar, and a buffering agent.

12. Use of the pharmaceutical composition of any of claims 6-11 in the manufacture of a medicament for preventing metastasis, reducing inflammation, reducing fibrosis, and/or reducing viral replication.
