

Abstract

Provided is a beer-taste beverage comprising 1000 ppb by mass or less of 4-vinylguaiacol, having an ethyl n-butyrate content of 140 ppb by mass or more, and comprising at least one lactone selected from γ -decanolactone and γ -undecalactone, wherein a ratio of the content (unit: ppb by mass) of ethyl n-butyrate to the total content (unit: ppb by mass) of the lactone [ethyl n-butyrate/lactone] is 1100 or less.
