(54) Title: TERMINAL, CONTROL DEVICE, COMMUNICATION METHOD, COMMUNICATION SYSTEM, COMMUNICATION MODULE, PROGRAM, AND INFORMATION PROCESSING DEVICE

[Fig. 1]

(57) Abstract: A terminal communicating with a network including a forwarding device(s) for forwarding a packet and a control device for controlling the forwarding device(s) in accordance with a request from the forwarding device, includes: a communication unit that receives a processing rule indicating that a packet for communicating with a first destination is changed so as to communicate with a second destination, from the control device; a storage unit that stores the received processing rule, and a processing unit that in a case of communicating with the network, changes a destination of a packet in accordance with a processing rule that corresponds to the packet by referring to the processing rule stored in the storage unit.
