(54) Title: BIOSTATIC FILTER

(57) Abstract: The invention relates to an air filter including a composition which has a biostatic or biocidal agent adapted to migrate through particulates accumulating in use on the filter. The biocidal agent may have bacteriostatic and/or fungistatic properties and may optionally include a humectant, a surfactant or rheological additive. The invention also relates to compositions for treating filters and a method of reducing airborne contaminants in air.
