

NONWOVEN FABRICS HAVING RAISED PORTIONS

ABSTRACT OF THE DISCLOSURE

5 Nonwoven fabrics having a fibrous background portion in
one plane thereof and raised fibrous portions in another
plane thereof. There may be two types of raised portions.
In one type, the basis weight of the raised portion is
substantially the same as the basis weight of the
10 background portion. In another type of raised portion,
the basis weight is greater than the basis weight of the
background portion. The raised portions are joined to the
background portion by a fibrous transition region.
